Job Description

This position is available only for people residing in Japan.

[Company Profile]

They are a company that provides a learning platform from the United States that can provide learning tailored to various learning situations.

In order to be able to utilize the learning content in actual work situations, the function that scientifically implements the process of "teaching, practicing, learning, and applying" has been highly praised, and is being introduced by major companies.

Approximately 90% of cases are inbound transactions★Transaction record: Pharmaceutical/financial/retail, etc. (more than 1,000 employees).

Incorporating the latest technology such as AI, they provide a system in which employees' voluntary learning is promoted through real-time feedback using AI, and learning is directly linked to sales.

[Attractive points of company/work]

This service is used by over 1 million companies around the world.

Unleash your full potential as a member of the best team of ambitious and energetic people.

They are a flat organization with no hierarchy or detailed positions, so your results are fairly evaluated and reflected in your compensation and career.

[Job Description]

- You will be mainly working remotely to develop new business and propose services targeting the US market.

Specific tasks include the following:

- Acquire new contracts (approaching potential customers by phone, email, and online meetings)
- Listen to each company's educational issues and propose optimal plans and usage methods
- Propose the creation and improvement of learning content that matches customer needs
- Acquire lead information for future orders (seminar presentations/collaboration seminars)
- Cultivate user awareness and interest in products (LP articles/YouTube videos/SNS)

They provide services mainly to enterprise companies in the pharmaceutical, financial, manufacturing, retail, and education service industries.

[Conditions]
