#### Job Description

We are seeking an experienced Project Manager (all level) to oversee the delivery of AI-powered insurance solutions. This role involves managing end-to-end project execution, aligning stakeholders, ensuring customer satisfaction, and contributing to business expansion in Japan.

**Client Details**

Our client is a French-base global leader in AI-driven insurance technology, providing solutions that help insurers automate claims, detect fraud, and enhance operational efficiency. With a presence in major global markets, the company partners with leading insurers to drive digital transformation (DX) and business innovation.

**Description**

- Lead project implementation, working closely with global engineering teams and client stakeholders.
- Ensure seamless communication between business and IT teams to align project objectives.
- Maintain high client satisfaction throughout the product lifecycle.

- Support pre-sales activities, including responding to RFPs, defining project methodologies, and validating requirements.
- Manage project profitability, pricing, and commercial offers.
- Drive internal strategic initiatives to improve operational efficiency and company growth.

#### Job Offer

- Be part of a rapidly growing InsurTech company leading DX for insurance companies in Japan.
- Flexible hybrid remote work
- Competitive salary
- Generous paid time off (PTO)
- Collaborative, diverse, and innovative workplace culture.
- Full social insurance, training and certification support, and work-life balance initiatives.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Mana Chuabangon +81 3 6627 6080.

---

#### Required Skills

- 3+ years of project management experience in relevant technologies such as SaaS Solutions, or AI, or insurance technologies
  - Excellent communication with fluency in Japanese and business level English.
  - PMP, CAPM, or PRINCE2 certification is a plus.
-
