Job Description

A Transportation Planner is required for a permanent role in the life science industry, based in Tokyo. The role involves managing and improving transportation processes within the logistics department.

Client Details

Our client is a well-established organization in the life science industry. They are widely recognized for their innovative approach and dedication to improving lives around the globe.

Description

- Develop, implement and oversee transportation strategies and initiatives
- Work closely with logistics and supply chain teams to optimize transportation processes
- Coordinate with vendors and service providers to ensure efficient operations
- Analyze transportation data to identify areas for improvement
- Ensure compliance with industry regulations and company policies
- Stay current with industry trends and advancements in transportation technology

Job Offer

- Comprehensive insurance benefits
- An inclusive and supportive company culture
- Opportunities for professional development and career progression

If you are a motivated and experienced Transportation Planner looking for a rewarding opportunity in the life science industry in Tokyo, we encourage you to apply.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Maribeth Mockovak on +XX XXXX XXXX (NS phone number)

Required Skills

A successful Transportation Planner should have:

- A strong educational background in Logistics, Business Administration, or a related field
 - Proven experience in a transportation or logistics role within the life science industry
 - Strong analytical skills with the ability to interpret complex transportation data
 - SAP Knowledge
 - Proficient in both Japanese and English
-
