#### Job Description

This position is for a Demand Planning Leader in the Procurement & Supply Chain Department within the FMCG industry. The role involves overseeing demand forecasting activities, assisting in supply chain optimization, and ensuring an efficient flow of goods.

#### Client Details

Our client is a renowned global player in the FMCG industry. This large organization has a significant presence in numerous countries around the world and is particularly well-known for its premium quality products.

#### Description

- Oversee demand forecasting activities for all product lines
- Collaborate with cross-functional teams to ensure supply chain optimization
- Develop strategies to minimize stock shortages and overstock situations
- Implement effective tools for demand planning processes

- Monitor and adjust forecasts based on market trends
- Evaluate supplier performance and establish improvement plans
- Regularly report on inventory levels, delivery times, and supply chain efficiency
- Play a key role in the company's sustainability initiatives within the supply chain

#### **Job Offer**

- A competitive salary range of 6,300,000 - 7,500,000 JPY
- Comprehensive benefits package
- Opportunity to work in a multicultural and diverse work environment
- Chance to contribute to the company's sustainability initiatives
- Career growth opportunities within a large organization in the FMCG industry

If you are a dedicated professional looking to take your career to the next level in a global organization, we strongly encourage you to apply for this Demand Planning Leader position.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Mike Corbyn on +813 6832 8601.

---

#### **Required Skills**

A successful Demand Planning Leader should have:

- A degree in Supply Chain Management, Business, or a related field
- Previous experience in demand planning and forecasting within the FMCG industry
- Proficiency in using supply chain software
- Strong analytical skills and the ability to interpret complex data
- Excellent leadership and communication skills
