Job Description

We are seeking a detail-oriented and strategic Demand Planning Manager in the FMCG industry to oversee procurement and supply chain operations, ensuring optimal stock levels while minimizing costs. The role requires a keen understanding of demand forecasting, supply chain management, and inventory optimization.

Client Details

The company is a renowned player in the FMCG sector with operations spanning across the globe. As a large organization, it prides itself on producing high-quality consumer goods and maintaining a robust supply chain to meet the demands of its diverse customer base.

Description

- Oversee and manage overall supply chain and logistics strategy and operations in order to maximize process efficiency and productivity.
- Develop and execute demand planning strategies to meet business goals and objectives.

- Collaborate with sales, marketing, and finance teams to forecast demand and determine optimal stock levels.
- Identify potential supply chain risks and implement mitigation strategies.
- Manage and optimize inventory levels to ensure product availability and minimize costs.
- Develop and maintain positive relationships with key suppliers and vendors.
- Use advanced analytics to predict customer demand patterns and adjust operations accordingly.
- Implement continuous improvement initiatives in supply chain operations.

Job Offer

- A competitive salary package ranging from 9 million to 12 million JPY annually.
- Comprehensive benefits package.
- An opportunity to work in a diverse and global environment.
- A supportive company culture that values employee growth and development.

This position provides an excellent opportunity to join a leading company in the FMCG industry and play a strategic role in its supply chain operations. We encourage all qualified candidates to apply.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Mike Corbyn on +813 6832 8601.

Required Skills

A successful Demand Planning Manager should have:

- A degree in Business, Supply Chain Management, or a related field.
- Proven experience in demand planning and supply chain management in the FMCG sector.
- Strong analytical skills and the ability to interpret complex data.
- Excellent leadership and team management abilities.
- Proficiency in supply chain management software and advanced analytics.
