Job Description

This role transforms complex data into actionable insights to support strategic decision-making across drug development and commercial initiatives. You will collaborate with diverse teams to identify market opportunities and drive growth in Japan's evolving biopharma landscape.

Client Details

Our client is a pioneering biopharmaceutical firm focused on RNA therapeutics, advancing innovation in oncology, immunology, and rare diseases. With a strong presence in Japan, they are rapidly expanding their pipeline and accelerating the launch of groundbreaking treatments.

Description

- Transform data into actionable insights for strategic decisions.
- Analyze market trends, sales performance, and clinical data.
- Develop frameworks to identify growth opportunities and competitive landscapes.
- Collaborate with cross-functional teams to refine forecasting and performance tracking.
- Present analytical findings to senior leadership to guide business planning.
- Ensure all business intelligence activities comply with industry regulations.

Job Offer

Join a pioneering firm at the forefront of RNA therapeutics innovation in Japan. Benefit from the opportunity to lead strategic BI initiatives, collaborate with industry experts, and make a meaningful impact on patient care in a dynamic, fast-growing market with strong future expansion plans.

Required Skills

- Demonstrates extensive experience in business intelligence within pharma.
 - Possesses strong analytical skills and expertise in data visualization and market modeling.
 - Communicates complex insights clearly to diverse stakeholders.
 - Understands Japan's pharmaceutical landscape and regulatory environment.
 - Is proficient with modern BI tools and data analytics software.
