Job Description

Job Title: Japanese Speaking System Consultant

Location: Ramkhamhaeng, Bangkok

Job Type: Full-Time

About the Role: Our client, a leading IT Solutions company, is seeking a Japanese-Speaking System Consultant to join their growing team. This role is perfect for individuals with at least 2 years of experience in system consulting or related fields, or even fresh graduates eager to develop their careers in a dynamic international environment. If you have proficiency in Japanese and a passion for technology, this is an excellent opportunity for you.

Key Responsibilities:

- Communicate effectively with Japanese clients to gather system requirements and provide technical advice.

- Bridge communication between Japanese clients and internal teams, ensuring smooth project delivery.
- Provide on-site or remote training and support in both Japanese and English.
- Collaborate with cross-functional teams to ensure successful project completion.

Requirements:

- Language Proficiency: JLPT N3 or higher (required).
- Minimum 2 years of experience in system consulting or a related IT field is preferred, but fresh graduates with relevant skills are welcome to apply.
- Strong communication skills in both Japanese and English, technical proficiency, problem-solving abilities, and the ability to work collaboratively in a team.
- Degree in IT, Computer Science, Engineering, or a related field is a plus.

Benefit:

- Opportunities for professional growth and development.
- A supportive and collaborative work environment.
- Work with cutting-edge technology and a team of professionals.

How to Apply: If you meet the above requirements and are passionate about sales, we would love to hear from you. Please kindly click "APPLY" with your updated resume, for more information please kindly contact K. Namfon (+66 87-108-2111)
