Job Description

We are seeking a detail-oriented Senior Manager for the Logistics department, with a focus on life science. The ideal candidate will have a strong background in managing complex distribution networks and coordinating supply chain strategies.

Client Details

Our client is a multinational corporation and a large organization in the life science industry. The company operates globally and is renowned for its commitment to innovation and quality in all their products and services .

Description

- Management of the logistics distribution network and supply chain strategies.
- Operate and manage smooth and cost-effective operations related to domestic warehouses and domestic product distribution
- Lead vendor management and build an effective 3PL model
- Develop and manage effective teams
- Cost Management
- Responsible for warehouse process development and excellent execution of Kaizen projects

Job Offer

- Comprehensive insurance benefits.
- The opportunity to work in a large organization with a global reach.
- A thriving company culture that encourages innovation and personal growth.
- The chance to contribute to the life science industry in a meaningful way.

Join our team and become an integral part of a leading life science organization. Apply today to embark on a rewarding career journey!

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Maribeth Mockovak on +XX XXXX XXXX (NS phone number)

Required Skills

A successful Senior Manager should have:

- A degree in Life Sciences, Business, or related field.
 - Solid knowledge of logistics and supply chain management
 - Extensive experience in medical equipment logistics (warehouse operations and domestic distribution)
 - Experience in team goal setting and management
 - Experience in domestic 3PL operation management and deep understanding of domestic logistics in general (experience in warehouse operations supporting e-commerce business is preferred)
 - Experience in budget management
-
