#### Job Description

This is a unique opportunity for an Indirect Procurement professional to play a pivotal role in a large organization within the

Life Science industry, based in Tokyo. The successful candidate will be responsible for developing and implementing procurement strategies across the business, ensuring operational excellence.

#### Client Details

Our client is a large-sized organization, prominent within the Life Science industry. Known for their innovative strategies and high-quality services, they have established a strong presence in the market. The company values its employees and provides a supportive and rewarding work environment.

#### Description

- Develop and implement procurement strategies across various business units.
- Negotiate contracts and agreements with suppliers to ensure the best possible terms.
- Manage supplier relationships to ensure performance and compliance.
- Identify and implement cost-saving opportunities in the procurement process.
- Collaborate with cross-functional teams to align procurement strategies with business objectives.
- Monitor market trends and make recommendations for procurement processes and strategies.
- Ensure compliance with company policies and regulatory requirements.
- Manage and mentor a team of procurement professionals.

#### Job Offer

- A supportive and rewarding work environment.
- Opportunities for professional growth and development.
- Exposure to cutting-edge strategies and processes in the Life Science industry.
- The chance to make a significant impact in a large organization.

We invite all qualified candidates who are excited about this opportunity to apply and become a part of this dynamic team

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Francesco Pedrielli at +81368328644.

---

#### Required Skills

- Bachelor's degree or higher.
- Strong knowledge of procurement processes and strategies.
- Excellent negotiation and contract management skills.
- Ability to manage supplier relationships effectively.
- Strong analytical skills and ability to identify cost-saving opportunities.
- Excellent communication skills and ability to collaborate with cross-functional teams.
- Ability to manage and mentor a team effectively.
- Fluent Japanese, business English skills
