Job Description

We are looking for an IT Admin Network Staff to support and manage network infrastructure in a dynamic, global environment. This role offers flexible work arrangements, including remote work twice a week and flextime.

Client Details

As one of the world's leading specialty chemicals companies, our solutions enhance the performance of products in industries ranging from automotive to healthcare. With operations in over 100 countries and a strong commitment to sustainability, they are shaping the future through innovation and collaboration.

Description

- Manage and maintain local area networks (LANs), wide area networks (WANs), and internet systems.
- Monitor and optimize network performance, ensuring seamless operations.
- Support and troubleshoot hardware and software related to network infrastructure.
- Analyze and improve network efficiency through proactive maintenance and adjustments.
- Assist in website performance monitoring and conduct validation work to maintain uptime.

Job Offer

- Work-life balance with remote work (twice a week) and flexible hours (no core time).
- Competitive compensation package in a stable, global company.
- Opportunity for professional growth in a multinational environment.
- Direct reporting to Japan IT Manager and Global Director, offering international exposure.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Peryhan Essam on +813 6832 8691.

Required Skills

- Strong Japanese proficiency and business-level English skills.
 - Strong knowledge of networks and Cisco products.
 - Preferred: CCNA/CCNP certifications, ITIL, or other network-related certifications.
