Job Description

1. About the company

As a leader in their field, this company believes that through cutting-edge technology, a global approach, and strong collaboration, they can bring the future to the present.

With a Silicon Valley heritage, they develop revolutionary products while providing employees with some of the most

competitive benefits in Japan.

Live like you're in Japan – Work like you're in America.

2. Who you are

- An experienced Android developer who wants to work on products that actually see the light of day.
 - A team player who believes that a strong, well-functioning team is key to success.
 - Someone who refuses to settle for the bare minimum and strives to grow beyond their limits.
-

Required Skills

3. Requirements

- 4+ years of Android dev experience
- Strong OOP skills
- Understanding of Android frameworks and Jetpack libraries
- Business-level English
- A sense of ownership for your work and what you create

4. It's a plus if...

- You have conversational Japanese skills
-
