Job Description

Will join the multinational technology company as a finance analyst. This position will mainly be responsible for collecting information, perform monthly revenue forecast on Excel, conduct gap/movement analysis vs last forecast on revenues, and conduct business data analysis/reconciliation.

Client Details

Multinational technology company offering a broad range of networking solutions, including hardware, security, and cloud services base in the US.

Description

- Collect necessary information from various resources (emails or delivery members) and perform monthly revenue forecast on Excel.
- Conduct gap/movement analysis vs last forecast on revenues.
- Conduct business data analysis, and data reconciliation to tie between Excels.

- Organise and maintain business relative data properly.

Job Offer

- 9:00-17:30
- Social Insurance
- Long-term temp with a conversion chance (initial contract is 1 month, rolling every 2-3 months)
- Primarily remote work (needs to be on site when required)

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Aino Takagaki at +81368328913.

Required Skills

- Advanced Excel skill (No Macro required, but solid and quick update with formula and pivot knowledge)
 - Business English skills in writing & reading
 - Business Japanese level
 - Financial and business data analysis experience
 - Work experience in foreign company, especially IT
 - Financial business background in business function
-
