Job Description

A US marketing/data analytics provider is seeking a candidate to work with their client onsite, providing data analysis and financial modeling to a top tier investment banking client.

Client Details

Our client is a US headquartered company, which specializes in providing data analytics and marketing services and solutions to their clients. In Japan, their client base includes top tier institutions in the banking, financial services, and professional services industry.

Description

- Create company profiles, comparable company / precedent transaction analyses, benchmarking financials, company and industry research analysis reports, newsletters, and provide secondary research support when needed
- Understand sophisticated modeling tenets and build / maintain financial models for the client
- Methodical analysis of data and conversion of complex data into a simple, readable format to enable decision making
- Servicing of customized client requests
- Ensure clear and consistent communication channels with clients and the team are followed
- Document workflow processes extensively, which will also serve as a training guide for the team

- Ensure the consistency and quality of final deliverables to the client
- Proactive resolution of team issues via interdepartmental client communication

Job Offer

- Competitive salary and benefits package.
- Opportunity to work at a top tier financial institution.
- Opportunity to gain direct exposure to equity research and investment banking.

We encourage all qualified candidates who are passionate about leveraging data to drive business success to apply.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Tang Rea on +81368328606

Required Skills

The successful application will have the below qualities:

- At least 2-3 years of work experience in the financial services industry.
- Fluent level Japanese competency and fluent level English competency.
- Experience in supporting equity research/investment banking will be a plus.
- Experience with financial modeling/reporting will be a plus.
- Knowledge of databases such as Capital IQ, Thomson One, Refinitiv Eikon, SDC, Factiva, Merger Market, Perfect Information, Datastream, Euromonitor, and Moody's, as well as any related Excel plugins will be a plus.
- Excellent client relationship management skills
- Enthusiasm, aptitude, and organizational skills, with a willingness to learn
- Analytical Skills
