### Job Description

**Position:** Service Engineer

**Location:** Bangalore

**Company Overview**

Our client is a leading provider of cryocoolers, essential components used in MRI systems to achieve extremely low temperatures. With a 97% global market share in cryocoolers, they pride themselves on innovation and excellence in the medical and industrial sectors.

**Role Overview**

Our client is seeking a skilled and motivated Service Engineer to join their team. The successful candidate will be responsible for the maintenance, diagnostics, and repair of cryocoolers used in MRI systems. This role requires a keen understanding of mechanical and electrical systems and a commitment to maintaining high-quality standards.

**Key Responsibilities**

- **Dismantling and Diagnostic Work:** Perform dismantling and diagnostic work on cryocoolers to identify and resolve issues.

- **Parts Replacement and Assembly:** Replace and assemble parts as needed to ensure optimal performance of the cryocoolers.
- **Functionality Testing:** Conduct functionality tests, with a preference for candidates who possess electronic control skills.
- **Shipment Maintenance:** Handle maintenance, cleaning, and dispatch of cryocoolers for shipment.
- **Client Site Work:** Potentially travel to client sites for maintenance and repair work.

**Requirements****Must-Have:**

- At least 1 year of work experience as an electrical and mechanical service engineer.
- Expertise or a Bachelor's degree in machinery and equipment.
- Experience working in a Japanese company.
- Basic knowledge and experience with Microsoft Office software (Word, Excel, PowerPoint, Email, etc.).
- **Willingness to travel to Japan for training for approximately one month after joining.**

**Preferred:**

- Experience in air-conditioner maintenance, e.g., at Daikin, Fujitsu General, Mitsubishi Electric.
- Experience handling high-pressure gas.
- Experience in brazing or welding.
- Maintenance experience at companies like Yaskawa, Ebara, or Mitsubishi Electric, which deal with compressors.

**Preferred Personality Traits**

- Strong communication skills.
- Honesty and high motivation to grow.
- High awareness of safety and continuous improvement at work.

**Why Join Us?**

- **Global Leader:** Work with a company that holds a 97% global market share in cryocoolers.
- **Professional Growth:** Opportunities for training and professional development.
- **Innovative Environment:** Be part of a team dedicated to innovation and excellence.

If you are a dedicated and skilled service engineer looking to make an impact in a dynamic and innovative environment, we encourage you to apply!
