Job Description

Company and Job Overview:

This company is a major player in the repair of aircraft parts and MRO Services. They provide unrivalled cost-efficient repairs with market benchmark quality. They are looking for an Information Security Management System Executive to join their team.

Job Responsibilities:

Develop and establish an Information Security Management System (ISMS) framework in line with recognized standards, such as ISO 27001.

Develop and enforce security policies, procedures, and guidelines, ensuring they align with aviation safety requirements like EASA Part-IS.

Perform risk assessments to uncover vulnerabilities and apply appropriate control measures

Keep ISMS documentation up-to-date to ensure it complies with regulatory standards.

Job Requirements:

A minimum of 3 years of experience in a similar role, specifically in Information Technology and Cybersecurity.

Experience in the aviation maintenance industry is a plus.

Relevant certifications, such as ISO 27001 Lead Implementer, CISSP, CISM, or their equivalents.

Experience in implementing Information Security Management Systems (ISMS) and security frameworks
