Job Description

We are seeking an Insurance Risk professional for a vital role in the Enterprise Risk Department of this global insurance firm. The successful candidate will have the opportunity to contribute to the growth of our Insurance operation by managing and mitigating risks.

Client Details

This organization operates in the financial services sector, specializing in risk management and insurance. It offers a wide range of products, including property, casualty, and life insurance, as well as retirement solutions. Known for its global presence, the company has a significant foothold in Asia, particularly in Japan, where it delivers tailored services to meet local market needs. The firm emphasizes innovation, customer service, and adapting global expertise to regional markets. It often collaborates with businesses and individuals to provide solutions that safeguard against unforeseen events and support long-term financial security.

Description

- Help lead and manage the company's enterprise risk management efforts, including implementing new regulatory frameworks and supporting related testing and improvements.
- Take charge of updating the Economic Capital Model (ECM) process, making sure everything is accurate and runs

smoothly.

- Learn how to manage and update the GIRO model twice a year.
- Create processes and reports for stress testing, and assist in running tests for specific risks like insurance, natural disasters, and investments.
- Work with a database engineer to automate outputs from the internal risk model.
- Analyze results from risk models to ensure they are accurate and reliable.
- Keep all documentation related to the internal model up-to-date and well-maintained.
- Assist in preparing presentation materials for senior leadership and board meetings.
- Help write parts of the company's risk and solvency report for regulatory purposes.
- Collaborate with international colleagues across different teams and offices.

Job Offer

- A hybrid work model, allowing for a balance between in-office and remote work
- Company culture that values teamwork, innovation, and professional growth

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Carl Iso +818046764473.

Required Skills

A successful Insurance Risk professional should have:

- A bachelor's degree in Risk Management, Mathematics, Statistics, or Actuarial Science
 - Knowledge of Insurance industry regulations and guidelines
 - Strong analytical skills and the ability to interpret complex data
 - Skilled in business IT tools, including Microsoft Office, VBA, R, and SQL.
-
