Job Description

Play a critical role in the Front Office Risk team, monitoring the risk taking of trading desks /global markets and be involved in projects such as trader stop-loss monitoring, intraday risks and regulatory projects to help align the business with the regulatory framework.

Client Details

This financial services company operates across various sectors, including investment banking, retail brokerage, asset management, and wholesale services. It provides a broad array of products and services such as securities trading, investment advisory, underwriting, and wealth management. The company serves a diverse client base, including individual investors, corporations, financial institutions, and governments, with expertise in areas like equities, fixed income, and mergers and acquisitions. Headquartered in Tokyo, it plays a significant role in Japan's financial markets and maintains a strong global presence.

Description

- Understand the Global Markets trading desks risk taking and be able to clearly explain it to key stakeholders.
- Monitor and report any Stop/Loss breaches by traders in Japan, ensuring transparency and prompt escalation.
- Keep track of the overall market and prepare summaries for the weekly risk call.
- Create and update daily risk reports (using Python) to track trading positions and risk trends for both Japan and global

markets.

- This role involves multitasking and requires both a general understanding and the ability to dive into technical details when needed.

Job Offer

- International Work Environment
- Hybrid Work
- Internal Mobility (including global mobility)
- Local Reporting Line
- Opportunity learn, add value and take on additional responsibilities to advance career progression (if interested)

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Carl Iso +818046764473.

Required Skills

- Strong Communication skills in English (and preferably in Japanese)
- Understanding of financial markets and financial products
- Curiosity towards the Global Markets and or Risk & Market Risk function
- Programming skills (python) or an interest in learning these
- JSDA 1 Certificate or willingness to acquire this certificate after joining the team

Experiences in a relevant field would be preferred (Market Risk, Front Office Function, Operations or Technical Functions)
