## Job Description

**Location**: Bangkok Nera, TH, 10110

Location: Bangkok Nord, TH, 10110

From the bustling streets of Tokyo, to the quaint local shops in London, we make your everyday purchases simple and seamless. Ingenico is not just a company, we're the invisible link that connects you with the things you love. We're not just for the big players - we aim to cater to everyone, including retail, banks, payment companies and more! Innovation is the heart of our culture and fuels our drive to shape the future of commerce. We're sparking change and crafting cutting-edge solutions for a global audience. At Ingenico, we stand for trust, sustainability, and empowering and developing our employees.

Whether you're skilled in software development, product management, sales, or finance for example, we invite you to join our teams. If you're eager to leave your imprint on the fintech world, we're committed to helping you make it happen.

**KEY RESPONSIBILITIES:**

- Write test cases and test plans for the project
- Execute test cases
- Investigate potential defects and discuss them with developers
- Log defects during the test execution phase
- Report test results to the project manager
- Participate in business requirements review sessions with the peers and business users
- Test the applications in functional and system integration testing
- Write traceability matrix to reflect test coverage
- Prioritize test requirements and organize test cases accordingly

## Required Skills
