Job Description

This role calls for a dedicated Power BI talent who thrives in a technology environment. The successful candidate will be responsible for data analysis, creating dashboards and reports, and assisting in decision-making processes.

Client Details

The company is a global leader in consulting, technology services, and digital transformation. The company partners with global businesses to help them navigate complex challenges and drive innovation through a wide range of solutions, including IT services, business consulting, and outsourcing. They focus on delivering end-to-end services that improve operational efficiency, enhance customer experiences, and enable digital advancements. With a strong global presence and expertise across various industries, the company combines deep technical knowledge with a strategic understanding of business needs to drive measurable results.

Description

- Worked with clients to gather business requirements, design processes, and deliver reports, making sure everything was set up and approved.
- Managed daily tasks and deliverable, working with both on-site and offshore teams to keep the project on track.
- Designed data models and prepared data for Power BI dashboards.
- Built, improved, and deployed reports and dashboards using Power BI.
- Collaborated with senior stakeholders to define the system design, ensuring it met business needs and used Cloud technology for dashboard integration.

Job Offer

- Competitive salary and bonus
- International IT Environment
- Hybrid Working - 2 days per week at office
- Annual Performance Review
- Paid Leave
- Leadership Position
