Job Description

An exciting opportunity to join a global leader in post-trade risk analytics. This role involves supporting OTC derivative valuations, counterparty credit risk analysis, and engaging with clients to enhance risk management solutions.

Client Details

Our client is a leading post-trade solutions provider backed by two major financial institutions. They specialize in valuation and risk analytics, connecting global market participants to streamline post-trade workflows.

Description

- Analyze OTC derivative portfolios and run valuation and risk calculations.
- Support clients by investigating valuation discrepancies and troubleshooting issues.
- Explain valuation models, assumptions, and risk analytics to clients.
- Identify areas for service enhancements and collaborate with internal teams.
- Assist with pre-sales activities, onboarding clients, and managing pilot projects.
- Work closely with global teams to optimize post-trade risk analytics services.

Job Offer

- Work with a global leader in post-trade risk analytics.
- Career growth in a dynamic and technology-driven environment.
- Competitive salary and benefits, including health and wellness programs.
- Flexible work arrangements and continuous learning opportunities.

We encourage all qualified candidates to apply and join our team in Tokyo, where you can contribute to a forward-thinking financial services company.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Carl Iso +818046764473.

Required Skills

- 1-6 years of experience in OTC derivatives, market risk, or credit risk.
 - Strong understanding of valuation models and risk measures for OTC products.
 - Technical mindset with proficiency in Excel; Python knowledge is a plus.
 - Strong communication skills in English, with the ability to explain technical concepts.
 - Analytical approach with the ability to engage clients and internal stakeholders.
