Job Description

Roles and Responsibilities:-

- **Preventive Maintenance:** Conduct scheduled inspections and maintenance tasks on machinery and equipment to prevent breakdowns and ensure optimal functioning.
- **Troubleshooting & Repairs:** Respond to equipment failures and breakages promptly. Identify issues, make necessary repairs, and restore equipment to operational status as quickly as possible.
- **Equipment Optimization:** Monitor system performance, identify inefficiencies, and suggest/implement improvements for increased reliability and efficiency.
- **Documentation & Record-Keeping:** Maintain accurate records of maintenance activities, repairs, spare parts inventory, and equipment status. Ensure compliance with safety and regulatory standards.
- **Collaboration & Coordination:** Work with production teams, contractors, and suppliers to ensure timely repairs,

upgrades, and the proper operation of equipment.

- **Compliance & Safety:** Ensure adherence to health and safety regulations, maintain safe working conditions, and assist in audits and inspections.
- **Technical Support & Guidance:** Provide technical support and advice to other departments, assisting with machine setups or technical challenges.
- **Emergency Response:** Participate in emergency response protocols for critical breakdowns or safety incidents.
- **Continuous Improvement:** Assist with the identification of root causes of equipment failure and work on process improvements to minimize reoccurrence.
