Job Description

- Act as the bridge between local business teams and digital functions to drive adoption of global digital products. Leverage technology and data to enhance business outcomes, ensuring seamless digital integration.

Client Details

- A European pharmaceutical company committed to innovation in digital transformation, data analytics, and patient-centric solutions. They prioritize cutting-edge technology, collaboration, and a product-oriented culture to improve healthcare outcomes.

Description

- Act as the primary digital representative for global data & analytics products.
- Partner with local business teams to align digital strategy with market needs.
- Gather business requirements and drive adoption of global digital tools.
- Oversee local implementation of digital solutions and ensure business impact.
- Collaborate with global teams to refine and enhance digital capabilities.
- Manage technical resolution and incident prioritization at the local level.
- Ensure compliance with data privacy, cybersecurity, and regulatory standards.

Job Offer

- Opportunity to lead digital transformation in a dynamic industry.
- Exposure to cutting-edge digital tools and global best practices.
- Collaborative and innovative work environment.
- Competitive compensation and career growth opportunities.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Ed Marsden on +813 6832 8981.

Required Skills

- Strong background in business partnering and change management.
 - Experienced in digital transformation and data-driven decision-making.
 - Skilled in project management, stakeholder engagement, and communication.
 - Proficient in agile methodology, business intelligence, and data platforms.
 - Ability to influence, strategize, and drive adoption of digital solutions.
 - Fluent in English, with strong analytical and problem-solving skills.
