Job Description

Our client, a global leader in e-commerce and digital services, is looking for dedicated project manager who can work with engineers in many infrastructure-related projects.

Client Details

Our client is global technology company, known for its e-commerce platform, online banking, digital content, and telecommunications services. They operates in multiple countries, so understanding cultural differences and multilingual support might be beneficial.

Description

- Collaborate with the project owner to define and plan the project's scope and objectives.
- Monitor and update the status of the project alongside the project team.
- Provide support to engineers in addressing challenges and obstacles.
- Proactively identify and mitigate project risks throughout its lifecycle.
- Prepare the project closure report with the project team, summarizing outcomes and lessons learned.

Job Offer

- A dynamic, energetic working environment with good work/life balance
- Open culture and job rotation available to enable internal career development
- Competitive salary and benefits package
- Opportunity for growth and advancement within the company
- Collaborative and supportive team environment

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Ayaka Iwaki at +81 3 6832 8658.

Required Skills

- Inspiring and guiding project teams to achieve optimal performance.
 - Quickly identifying and resolving blockers with the project team to maintain progress.
 - Developing long-term plans to ensure project success and alignment with organizational goals.
 - Navigating and understanding dependencies between data center systems for smooth execution.
 - Effectively handling multiple projects, coordinating between various teams and resources.
 - Establishing transparent communication with internal and external stakeholders.
 - Ensuring strict compliance with the organization's customized project management processes.
