Job Description

COMPANY OVERVIEW

A manufacturer of CNC Machines is looking for an application engineer (m/f/d) near Frankfurt am Main.

JOB RESPONSIBILITIES

- Conducting both pre- and post-sales activities such as time studies, test cuts, technical presentations, trouble shooting of issues caused at customer's production, hands-on training for dealers and customers
- Providing technical support for dealers, including both proactive and reactive approach
- Partner with fellow dealers to generate leads by implementing time studies, test cuts and other technical proposals
- Planning and providing technical training for dealers and customers
- Planning and organizing exhibitions and open houses with colleagues

- Researching market demands and feedback to corresponding department
- Reporting own activities weekly and monthly in designated report format
- Visiting customers and dealers to promote machines and to solve issues

JOB REQUIREMENTS

- Strong and wide knowledge of Machining Centers, toolings, automation and other relevant aspects
- Hands-on experience on 3 and 5 axis Machining Centers, CNC programming and CAM programming
- Experience in CNC Lathe or Turning Center in an advantage
- Ability to discuss highly technical concepts with prospective leads
- Ability to present and prepare presentations
- Ability to construct hypotheses and deriving logical solutions
- Self-motivated attitude
- Good command of English and willingness to travel across Europe
- Turkish skill is an advantage
- Minimum 4 years of experience in the Machine Tools industry or education/apprenticeship in engineering is preferable

BENEFITS

- Flex-time
- 30 days of paid leave
