Job Description

POSITION: OPERATION MANAGER – Manufacturing

INDUSTRY: ELECTRONIC MANUFACTURING

LOCATION: SAMUT PRAKAN

SALARY: 150,000 - 200,000 THB/MONTH - open to discuss

Job Summary: The Operations Manager is responsible for overseeing and managing the day-to-day operations of the production facility, ensuring that production targets are met, quality standards are maintained, and operational efficiency is optimized. This role requires extensive knowledge in Surface-Mount Technology (SMT) and the automotive industry.

Key Responsibilities:

- Oversee the daily operations of the production facility, including SMT processes, Assembly process and automotive manufacturing.

- Ensure production targets are met while maintaining high-quality standards.
- Collaborate with various departments such as engineering, procurement, and logistics to ensure smooth production processes.
- Analyze production data to identify areas for improvement and implement strategies to enhance productivity and reduce costs.
- Ensure compliance with safety regulations and promote a culture of continuous improvement.
- Lead and manage a team of production staff, providing guidance and support as needed.
- Develop and implement process improvement initiatives to optimize manufacturing efficiency.
- Monitor and maintain inventory levels to ensure timely availability of materials.
- Prepare and present regular reports on production performance and operational metrics.

Qualifications:

- Bachelor's degree in engineering, business administration, or a related field.
- Minimum of 10 years of experience in operations management, preferably in the automotive industry.
- Strong knowledge of Surface-Mount Technology (SMT) and Assembly processes.
- Excellent leadership and communication skills.
- Solid understanding of lean manufacturing principles and experience in implementing process improvement initiatives.
- Knowledge of automotive production systems such as Just-in-Time (JIT) and Total Quality Management (TQM).
- Ability to analyze data and make informed decisions to improve operational efficiency.
- Strong problem-solving skills and attention to detail.
