Job Description

COMPANY OVERVIEW

Our client is a prominent global IT service provider that excels in custom software design, IT consultancy, and infrastructure management. They deliver high-performance, large-scale systems like API Gateways and message queues, ensuring smooth global operations and enhanced system reliability. Their comprehensive IT solutions help businesses eliminate challenges, optimize resources, and boost productivity.

JOB RESPONSIBILITIES

- Lead or co-lead projects in a PM or co-PM capacity, ensuring successful delivery through effective management.
- Provide technical expertise in IT domains (infrastructure, networking, applications, APIs) tailored to client needs.
- Gather, analyze, and document business/system requirements while aligning project directions with stakeholder objectives.
- Manage vendors and partners, ensuring effective communication, timely deliverables, and quality outcomes.

- Maintain consistent communication with all parties to monitor progress, address issues, and provide solutions.
- Support team members, ensure compliance with policies and standards, and manage project documentation.
- Perform additional duties as required.

JOB REQUIREMENTS

- Bachelor's degree in Information Technology, Computer Science, or a related field.
- Preferred PMP, PRINCE2, TOGAF, ITIL, Scrum or any relevant industry certification.
- 10+ years of experience in IT/Digital Transformation, including 5+ years in consulting or leadership roles and as a system architect.
- Skilled in project management, delivering projects with strong organizational and planning abilities.
- Excellent communication, collaboration, and problem-solving skills to drive stakeholder engagement and business success.
- Adaptable to change, with expertise in SDLC, waterfall, and agile methodologies.
- In-depth knowledge of IT trends, technologies, and tools, with experience working across diverse teams and cultures.
- Willingness to travel overseas, up to two weeks per month.

Working Location: Singapore
