## Job Description

A global leader in cybersecurity is looking for a **SOC Analyst** to join its Security Operations Center (SOC) team in Japan. This role is ideal for professionals who are passionate about threat detection, incident response, and enhancing cybersecurity defenses in a fast-paced environment.

## 企業情報

Our client is a **global leader in cybersecurity**, providing cutting-edge endpoint protection, threat intelligence, and extended detection and response solutions. With a strong presence in Japan and worldwide, they specialize in **defending enterprises against advanced cyber threats** through AI-driven security platforms and proactive threat-hunting capabilities.

Known for their **innovative approach to cybersecurity**, they empower organizations to detect, analyze, and respond to sophisticated attacks in real-time.

## 職務内容

We prioritize work-life balance and offer **remote work flexibility**

- Act as an escalation point, conducting in-depth security analysis on high-priority endpoint alerts
- Investigate complex attack chains across diverse environments, including cloud, identity, email, network, and endpoints
- Lead incident response efforts, taking swift and decisive action to mitigate active security breaches.
- Conduct proactive threat hunting to identify hidden threats within customer environments.
- Research and analyze emerging threats, attack techniques, malware samples, and adversary tactics.
- Leverage OSINT to enhance threat detection, refine hunting queries, and contribute to the development of threat alerts.
- Engage directly with customers at various levels, from SOC analysts to C-suite executives, providing expert insights and recommendations.

## 条件・待遇

Full Remote work available (Within Kanto area)

Global Leader in Cyber Defense

Global Team with members located in Japan and abroad

Competitive Salary

Career Growth opportunities (Vertical (Team leader) & Horizontal (Learn New Security Tech))
