Job Description

A leading global company seeks a Product Manager to drive market growth for its safety solutions. You will manage product life cycles, develop strategic marketing plans, and collaborate with international teams to localize global strategies. This is an opportunity to take ownership of a high-impact portfolio and make a real difference in the safety industry.

Client Details

With over 130 years of global history, this company has built a strong reputation for delivering high-quality, reliable technology in specialized industries. It is recognized for its market-leading position, innovative solutions, and commitment to excellence. At this company, employees benefit from a collaborative work environment, the freedom to take ownership of their roles, and

ongoing professional development opportunities.

Description

- Develop and execute product and market strategies for safety solutions
- Manage the product life cycle, from launch to end-of-life decisions
- Conduct market analysis, competitor research, and pricing strategies
- Lead cross-functional teams in product launches and promotional activities
- Act as a bridge between Japan and global teams for localization and issue resolution
- Provide training on product applications for sales and service teams

Job Offer

- Competitive salary (~¥10 million) + Benefits (health insurance, pension, annual leave, and more)
- Flexible working arrangements, including remote work options
- Opportunity to work with a market leader and influence product strategy
- Extensive training and professional development opportunities
- A dynamic and collaborative team environment

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Keigo Narita on+81366276083.

Required Skills

- 3+ years of experience in product management or marketing for safety, industrial, or chemical products
- Strong analytical skills to define market strategy and pricing
- Experience in B2B marketing, including product launches and competitive research
- Ability to lead cross-functional teams and drive results
- Excellent Japanese and English communication skills
- Self-motivated, strategic thinker with a team-oriented mindset

*Candidate must be a resident of Japan
