Job Description

The ideal candidate should be experienced in the life science industry, with a particular focus on logistics. Good understanding of order management, 3PL management and domestic logistics.

Client Details

This position is within a large organization in the life science industry. With a significant presence in Tokyo, the company has a proven track record of innovation and is dedicated to improving the quality of human life by enabling people to do more, feel better, and live longer.

Description

- Coordinate and streamline the company's logistics operations.
- Develop and maintain constructive relationships with internal and external stakeholders.
- Ensure efficient and timely delivery of products.
- Implement strategies to optimize operational efficiency in the logistics department.
- Oversee the management of inventory, including tracking and quality control.
- Contribute to team efforts by accomplishing related tasks as needed.
- Maintain compliance with the company's policies and relevant laws and regulations.

- Continually improve the company's operations through active feedback and continuous learning.

Job Offer

- A permanent position in a reputable life science company.
- The opportunity to grow and develop professionally within the company.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Ayaka Sugai at +81 3 6832 8958.

Required Skills

- A strong background in life science (not mandatory), particularly in logistics.
 - Excellent planning and organizational skills.
 - Strong interpersonal skills and the ability to build relationships with stakeholders.
 - A keen eye for detail and a commitment to quality.
 - The ability to work well under pressure and handle multiple tasks simultaneously.
