Job Description

Operational Supply Planning Manager

JOB PURPOSE:

Develops short-term (0-6 months) Supply Planning plan, including detailed scheduling for Finished Goods, Master Production Schedule and Distribution Requirements Planning (DRP)/Deployment for relevant assets in the regional network. Contributes to the Supply Reviews and to the S&OE process. Is accountable for stock levels across network, incl. replenishment.

Your role:

- Reporting to the Supply Planning Head Asia, the Operational Supply Planning Manager will support Henkel Supply Planning Agenda and drives initiatives in the region.

- Translates the mid-term production plan into the short-term plan (planned orders to firm orders).
- Develops and reviews the short-term production and scheduling plans by line / technology, considering capacity, utilization and timing.
- Operational Supply Planner is accountable for managing stock transfers until 1st decoupling point, whilst the Replenishment Planner manages from the 1st decoupling point to the entire network.
- Monitors daily actuals against weekly production plan and tracking product availability, production schedule adherence, and recommends corrective action for non-adherence.
- Identifies short-term FG requirements in the markets and makes a proposal on the allocation based on business priority.
- Supports on the inventory analysis by reviewing the inventory policies, tracking and managing slow-movers, and monitoring obsoletes.
- Maintains select manufacturing parameters (incl. constraints).
- Provides inputs and participates in the S&OE, communicating material availability issues and capacity constraints.
- Collaborates with the Plant Production Schedulers to align on scheduling activities.
- Collaborates with Purchasing and Material Planning to ensure raw material supports the production schedule.
- Identifies and supports on continuous improvement initiatives that enhance Planning performance.

Your skills:

- Bachelor's degree in supply chain management or equivalent.
- 6-10 years' experience in the Supply Planning.
- Supply Chain Management.
- Operational Supply planning/ Production Planning/ Scheduling.
- Project management skills.
- S&OP / IBP knowledge.
- Proven success in operational excellence and continuous improvement in supply planning roles.
- Strong communication skills, collaboration & hands on experience.
- Data Analytics & BI.
- Strong knowledge of system: SAP/ APO/ Kinaxis/ OMP/ o9 or similar.

Other requirements

- THAI language skills.
- English language skills.
- Based in Malaysia (KL).
- First 3-6 months frequent travel.
