### Job Description

**Company and Job Overview**

A leading company in the advanced manufacturing industry is seeking an Engineering Lead to join a new start-up division. This role involves overseeing production operations to ensure efficient, cost-effective manufacturing processes while maintaining high-quality standards. The ideal candidate will have a strong background in manufacturing, excellent leadership skills, and a proven ability to drive process improvements and innovation. This is an exciting opportunity for a professional looking to contribute to a company known for its high-quality products and innovative solutions.

**Job Responsibilities**

- Lead a team of engineers, ensuring project timelines and quality standards are met, reducing cost/waste, optimizing fabrication processes, and driving innovation to enhance productivity and efficiency.
- Foster a culture of continuous improvement and innovation within the team
- Collaborate with project managers and stakeholders to define technical requirements and project scopes
- Troubleshoot and resolve engineering issues during the fabrication process
- Review and approve engineering designs, drawings, and specifications
- Assist in the development of new products and prototypes, ensuring manufacturability
- Stay updated on advancements in metal fabrication technologies and materials
- Work closely with production, quality assurance, and supply chain teams to align engineering goals with operational

objectives

**Job Requirements**

- Bachelor's degree in Mechanical Engineering, Manufacturing Engineering, or a related field.
  - A minimum of 7–10 years of experience in metal fabrication or a similar industry, with at least 3 years in a leadership role.
  - Proficiency in CAD software (e.g., AutoCAD, SolidWorks) and familiarity with manufacturing software (e.g., ERP systems).
  - Strong knowledge of fabrication techniques, welding, machining, and material properties.
  - Proven project management skills with experience in lean manufacturing and Six Sigma methodologies .
-
