Job Description

We are looking for a Technical Operations Manager to drive performance, optimize support strategies, and collaborate with international teams to ensure seamless operations.

Client Details

The client is a global leader in medical technology and healthcare solutions, this company is at the forefront of innovation in medical devices and patient care systems. The company operates worldwide, delivering solutions that enhance treatment efficiency and patient outcomes.

Description

- Manage technical operations to ensure system performance, reliability, and efficiency.
- Develop and implement strategies to achieve business performance targets.
- Lead and support technical teams, fostering collaboration and problem-solving.
- Monitor and optimize technical performance, identifying areas for continuous improvement.
- Coordinate with global teams, acting as a key liaison to align local and international operations.

Job Offer

- Hybrid work model with flexible hours.
- Opportunity to work on global medical technology initiatives that impact healthcare worldwide.
- Career growth and professional development in a cutting-edge industry.
- A dynamic, international work environment that fosters innovation and collaboration.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Peryhan Essam on +813 6832 8691.

Required Skills

- Proven experience in technical operations or IT service management within a regulated industry.
 - Strong background in project management, performance optimization, and team leadership.
 - Excellent problem-solving skills with a proactive and analytical approach.
 - Experience working in a global environment, collaborating across multiple regions.
 - Business-level Japanese & Business-level English for effective communication with local and global teams
