### Job Description

A multinational company in the Manufacturing Industry that specialises in trading Electronics, Metals, Chemicals & Materials, and Mechatronics products, is looking for a **Sales Executive for Steel** materials and a **Sales Executive for Truss Deck** materials.

**Job Responsibilities**

- Being proactive in identifying and developing new business opportunities via effective selection and categorization of customers.
- Practice effective account planning, preparation and reporting by ensuring concise and effective update of reports as required by management.
- Demonstrate effective account management and development via Account analysis to establish a deep understanding of the customer's business and their problems/concerns and priorities
- Achieve sales and GP budgets through product demonstration with confidence and credibility to customers the technical and commercial benefits of our Client's products and their differentiation from the competition
- Undertake effective up to date market trend, information analysis of situations and data and thus providing feedback to management team to drive continuous improvement
- Play a key role in securing excellent, valid commercial contractual terms by Assessing and identifying opportunities to reduce commercial risk, and negotiating of appropriate contractual terms and conditions and obligations

- Collaborate with engineering team to keep tabs on post-sales feedback and support technical assistance to address customer concerns

**Key Requirements**

- Diploma or Degree in Chemical Engineering, Mechanical Engineering, or a related field
- Minimum 1-2 years' experience in selling building construction raw materials such as Steel, Truss Deck or similar products.
- Positive work attitude and strong communications skills
  
- Preferably experience in Project Management, or from construction background
  
- Willing to travel when required
