#### Job Description

The Business Analytics Lead will manage commercial forecasting and deliver predictive analytics to senior leadership, working with cross-functional teams to enhance brand performance and marketing effectiveness. Expertise in pharmaceutical forecasting, data science, and analytics tools is essential to drive strategic insights and support upcoming product launches.

#### Client Details

- A leading pharmaceutical company is seeking a Business Analytics Lead to join their Insights and Analytics (I&A) team in Tokyo. In this role, you will lead commercial forecasting activities and deliver predictive analytics to senior leadership, collaborating with cross-functional teams to optimize marketing effectiveness and support data-informed decision-making.

**Description**

- Lead the development of short- and long-range sales forecasts for in-line and future indications
- Provide strategic insights and ad-hoc support to Commercial teams as a Brand Analytics expert
- Collaborate with Marketing and Brand teams to develop patient, volume, and revenue forecasts
- Apply data science techniques to generate predictive insights and improve marketing effectiveness
- Develop and measure KPIs related to brand strategy and performance
- Create dashboards and reports to translate data into actionable insights for leadership
- Partner with Advanced Analytics colleagues to optimize promotional spend and assess business levers
- Liaise with external vendors for Sales Force Effectiveness reports
- Ensure data accuracy by collaborating with data management teams
- Experience in pharmaceutical or biotech forecasting and analytics
- Strong business acumen with the ability to translate data into actionable insights
- Expertise in pharmaceutical data sources (e.g., IQVIA, specialty pharmacy data)
- Proficiency in CRM systems (e.g., Veeva, Salesforce) and BI tools (e.g., Tableau, Qlik Sense)
- Advanced analytics skills, including data modeling and statistical techniques
- Excellent communication and presentation skills, with the ability to influence senior leadership
- Leadership experience in a matrixed environment
- Bachelor's degree required; advanced degree (MBA, MS, MD, PhD) preferred

**Job Offer**

- Competitive salary with performance-based bonuses
- Comprehensive benefits, including healthcare, retirement plans, and wellness programs
- Career development opportunities with access to training and mentorship
- Collaborative and diverse work environment with a focus on innovation and growth
