Job Description

A dynamic opportunity to contribute to new account risk management for one of the world's leading financial institutions. This role focuses on developing data-driven underwriting strategies and partnering cross-functionally to drive profitable growth and innovation.

Client Details

Our client is a global financial services leader with a strong presence in Japan. Renowned for its customer-first approach, inclusive culture, and data innovation, the firm offers opportunities for ambitious professionals to grow within a collaborative, fast-paced environment.

Description

- Design and monitor risk strategies for new account underwriting.
- Identify, test, and implement data sources to enhance strategy performance.
- Partner with Marketing, Acquisitions, Product, and Risk teams on growth initiatives.
- Monitor portfolio trends, analyze KPIs, and drive insight-led change.
- Understand the competitive landscape and regulatory environment.
- Develop system expertise to optimize underwriting processes.

- Support an inclusive and collaborative team culture across functions.

Job Offer

- Strategic exposure to the full lifecycle of credit decisioning.
- Hybrid work model with flexible arrangements.
- Competitive salary, bonus incentives, and wellness programs.
- Career development in a supportive, global environment.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Carl Iso +818046764473.

Required Skills

- Passion for solving problems with data and innovation.
- Strong communication and interpersonal skills.
- Ability to extract insights and influence across departments.
- Proficiency in SAS, SQL, R, or Python-or willingness to learn.
- Fluency in Japanese and English.
