Job Description

A fantastic opportunity to shape credit risk strategies for a leading global financial institution. This role focuses on enhancing decision strategies across the customer lifecycle to ensure profitable growth and responsible risk management.

Client Details

Our client is a globally respected financial services company known for data innovation and world-class customer experience. With a strong presence in Japan, the firm provides an inclusive, collaborative environment to drive meaningful change.

Description

- Design and optimize strategies across underwriting, authorization, and line control.
- Analyze data to identify credit risk trends, root causes, and growth opportunities.
- Collaborate with global and local teams to deliver risk strategies and improvements.
- Present findings and recommendations to leadership and cross-functional partners.
- Use new and existing data sources to enhance modeling and decision performance.
- Monitor KPIs, track results, and support the implementation of strategic changes.
- Ensure alignment with market practices, customer expectations, and regulations.

Job Offer

- End-to-end ownership of risk strategies with business impact.
- Hybrid work model and flexible working culture.
- Competitive salary, bonus, and industry-leading benefits.
- Career development within a global, data-driven organization.

Take the next step in your career in the financial services industry and join our team in Tokyo. We look forward to hearing from you!

Required Skills

- Strong analytical and problem-solving mindset with attention to detail.
- Proficiency in SAS, SQL, R, Python-or willingness to learn.
- Experience in risk, strategy, or data analytics preferred.
- Effective communicator in both Japanese and English.
- Ability to influence and collaborate with stakeholders across functions.
