Job Description

We are seeking a dedicated Project Manager to oversee technology projects within the industrial / manufacturing industry. The ideal candidate will have a firm grasp of technology trends and demonstrate leadership skills to drive teams to success.

Client Details

Our client is a large organization in the industrial / manufacturing industry with a significant global reach. Renowned for its innovation in technology, the company prides itself on its high-quality products and its commitment to sustainability.

Description

1. Operation and management of the vehicle inventory management system (AVL)
 - Collaborate with the Used Car (APO) team in charge to ensure data accuracy.
 - Communicate system requirements for change/amendment to vendors and reflect them on the front end.
1. Operation and management of the cloud-based bank account and payment system
 - Facilitate smooth data integration and maintain an overall understanding of the system with Finance team.

- Plan and implement necessary updates/modifications and handle issues when required.

1. Project Management Tasks

- Support Sales team on project management for the vehicle transportation and delivery status confirmation system.

1. Project Management and Coordination for Financial Systems

2. Other Business Support Tasks

- Provide general assistant duties for the IT manager.
- Coordinate among departments to ensure smooth system operations.

Job Offer

社会保険・交通費・ハイブリッド環境
