募集要項

Main Purpose: To take the lead for the delivery of Integrated Facilities as outsourcer.

Business Management

- Responsible for the delivery of Facility Management Services to the Client's representatives for the Japan business
- To manage the onsite team at the client operations, as the most senior person onsite for the Japan operations.
- To communicate a vision for the strategic development of the Japan and wider regional account.
- Maintain an Account Development Plan in conjunction with local and central operations for all services areas.
- Evaluate proposed and required changes to services identifying financial, personnel and operational performance implications prior to confirmation and implementation of service changes and manage change process as appropriate.
- Ensure that the IFS team successfully completes scheduled activities and provide prompt and robust response to no planned activities inline with agreed Statement of Work.
- Manage ongoing innovations for improved productivity
- Ensure the required work, standards and financial targets are achieved in all service.
- Support continuous development of maintenance strategy in line with, "Business Focused Maintenance" techniques (where such techniques are able to be employed).

Client Relationship

- Maintain the relationship framework for the account to ensure working relationships at all levels of the business are in place and effective
- Promote quality client communications
- Provide proactive feedback to client in areas of cost control, work scope, innovative improvements and additional services
- Ensure client issues are dealt with effectively at the appropriate level
- Check that all quality matters are being treated in a timely and professional manner as required
- Attend client meetings, have good knowledge of site operations, encourage active improvements & provide feedback to clients

Employee Engagement

- Implement performance management systems and conduct regular appraisals and reviews with managers and supervisors
- In conjunction with the ISS Japan country management lead all of the team performance development matters, including disciplinary actions, if required.
- Team building by active participation and encouragement of staff input
- Ensure appropriate procedures are in place for the recruitment and selection of staff taking active part in the recruitment of key staff
- Identify and monitor training requirements of supervisors, staff and suppliers
- Ensure appropriate procedures are in place to identify the development needs of team through observation and appraisal ensuring these are met through appropriate training and development activities
- Develop the senior leadership team for the account ensuring succession plans are in place
- To ensure the ongoing development of all managers, operatives and teams within the business and to establish succession plans for all key positions

Health Safety and Environment

- The position is responsible for ensuring total adherence to the HSE principles and programs in the Clients operations in Japan
- Maintain a reporting procedure for accidents and near misses
- Maintain a communication network to raise Health & Safety issues
- Ensure, with the leadership team that Risk Assessments for all tasks are implemented and communicated effectively
- Develop a safety culture within the Japan operations and support the wider account to establish a secure and safe environment
- Ensure initiatives and programs are implemented across the region to ensure the nominated energy saving targets are achieved
