【JOB RESPONSIBILITIES】

- Design and production of packaging

We are looking for someone who can make design proposals logically. Mainly, we would like you to assist us in developing overseas brands in Japan. Alternatively, we would also like to ask you to create designs for overseas expansion of Japanese brands or Japanese originals. We need to create a package that is acceptable in the Japanese market while exploring true localization and Japanese insight. You will be in charge of production while understanding the client's brief, why the design proposal was made, and considering print reproducibility.

[REQUIREMENTS]

- Experience in package design production (3+ years of work experience)
- 3+ years of experience working with Illustrator and Photoshop
- Bilingual in Japanese and English (Japanese: native, English: level of ability to participate in business emails, presentations, and brand strategy meetings)
- Experience in creating FMCG package designs
- Design agency, freelance, or DTP experience
- Experience building brand and design strategies
