募集要項

【職務内容】

This position will be responsible for general desktop support for the Tokyo office, as well as remote support for other offices as needed.

- Setup, configuration, installation, and troubleshooting support
- Support including training, mentorship, and expert roles in specific software groups and group representation on large, multi-functional projects.
- Develop and track performance measurements and determine the optimal system configuration
- Identification of problems, creation of project plans/schedules, execution, and measurement of results for software related projects
- Serve as a local point of contact for the global IT team, removing, installing, and replacing servers and other hardware.

- Collaborate with APAC desktop managers and team members to resolve IT issues that occur in the workplace.
-

スキル・資格

【応募条件】

- Desktop support experience (3+ years)
 - Self-starter based in the APAC region who can thrive in a multicultural environment
 - MS Office 365 troubleshooting skills (advanced level)
 - Interpersonal skills to work with managers at all levels in both Japanese and English
 - Experience using ServiceNow
-
