募集要項

Technical pre-sales and post-sales role, providing support for the company's Hardware System and Verification products.

- ◆ Global leader and pioneer of industry standards - software used by hardware companies around the world.
- ◆ Company consistently ranked as one of the "Best Places to Work For" in Fortune Top 100.
- ◆ Hybrid work style with Flexible Hours

スキル・資格

【Qualifications】

- ◆ Bachelor's degree in Computer Science, Electrical/Electronic Engineering, or related field
- ◆ Has the knowledge and desire to take on new challenges

【Preferred Skills/Experience】

- ◆ 5 years' experience in HDL design and verification.
 - ◆ Experience in using EDA tools - mainly on functional simulators and debuggers - familiarity with virtual acceleration technology and hardware emulator knowledge is a plus.
 - ◆ Knowledge of debugging designs,
 - ◆ Programming skills for efficient task execution - such as experience in shell scripting, C/C++, Perl, Tcl, Python, Ruby, etc.
 - ◆ Experience in construction of verification environments (using languages such as HDL, SystemVerilog, e, or SystemC), or verification methodologies (like UVM, OVM, etc.)
 - ◆ Knowledge of FPGA design and debug tools (such as Vivado)
 - ◆ Provide optimal solutions for verification tasks to customers, building good customer relationships.
 - ◆ Communication skills in English (email, technical discussions) preferred, but desire to learn/improve is also considered highly
 - ◆ Problem-solving ability, with a strong motivation for independent work.
 - ◆ Openness to diverse scopes of work, and eagerness to grow skills & knowledge
