### 募集要項

**Purpose of Position**

Engineering support services for electrical, mechanical, fire protection, general construction, energy conservation, environmental protection, safety at work and other facilities related engineering in Barclays Japan site.

**Role and Responsibility**

Essential Duties and Responsibilities:

- Operation and Management of the high-voltage power system and computer air conditioning system
- Achieve continuity of critical engineering services with focus on uptime and operation at optimum efficiency
- Conduct Critical Facility Manager role with engineering management programs and ensuring safe and compliant workplaces
- Perform planned preventive maintenance (PPM) management of the critical facilities through contracted facility vendors
- Coordinate change management processes in accordance with client change policies and service level expectations.
- Responsible for vendor management, emergency change request management, and incident Management.
- Support KPI's, ensuring that all work orders are electronically closed out within customer service level expectations
- Develop mid to long term capital investment plan
- Support business processes and operational risk assessments, work plans and procedures to mitigate against disruption to services during maintenance, repair or upgrade works
- Support internal ISS and client driven program to completion in a timely fashion.
- Deliver the monthly reports and related administration work
- Perform related duties as assigned by the manager
- Maintain compliance with all company policies and procedures

---

**スキル・資格**

Education and/or Work Experience Requirements:

- Data Center facility operation and/or large size office building facility management experience
- Denken 3-shu qualification is a plus
- Japanese and English verbal and written communication skills, including ability to effectively communicate with internal and external stakeholders.
- Excellent computer proficiency (MS Office – Word, Excel and Outlook)
- Must be able to work under pressure and meet deadlines, while maintaining a positive attitude and providing exemplary customer service
- Ability to work independently and to carry out assignments to completion within parameters of instructions given, prescribed routines, and standard accepted practices
