日本での就労許可が必要です**募集要項****【An Ideal Opportunity for those who are aiming to become a Tech Lead!!】 【MERN】**

This Position requires Japanese communications skills.

Feel free to reach out to us to discuss this OR other possible opportunities!!

A Tokyo-based tech solution company is actively hiring aspiring engineers who can collaborate with their business and tech teams as a full stack developer. As their business continues to grow, they are planning to hire multiple full stack engineers within this year!!

The company is:

- a quality-oriented
- conscious of writing high-quality code

and develops its own SaaS and other services for client projects.

Examples of RESPONSIBILITIES :

- Participate in Designing and Development of the products using technologies such as Javascript, Typescript, AWS, and React.
- Participate
- Meetings and negotiations with external parties, including requirements definition (mainly in Japanese)
- Meetings with internal teams for requirements definition and basic design, and collaboration with engineers (mainly in English)
- Troubleshooting, debugging and testing

This position is intended for long-term dispatch with a three-month renewal cycle, or for employment as a temp-to-perm dispatch.

Depending on the applicant, we are considering the possibility of promoting them to full-time employment upon joining the company,

so we look forward to receiving applications from a wide range of people!

スキル・資格

- Strong command of both Japanese and English
- Solid background as a fullstack engineer
- Extensive knowledge and experience of using web application-related languages
- Solid understanding of Cloud technologies
- Solid Security technology knowledge is a plus

Employee Benefits and Others

- Social/health/Unemployment insurances
- Annual Health checkup
- Flu vaccination support
- Transportation Allowance
- Annual paid leave
- Year-end and New Year's holidays
