募集要項

Excellent senior Project Management opportunity in the Insurance domain at a well established U.S. Listed Technical Consulting Company. This position offers a great salary package as well as other benefits!

Client Details

Our client is a Multinational IT services company based in the United States, a market leader in providing advanced technical solutions to fulfil their customers' needs and solve their toughest challenges. Integrity, competence and diversity are some of their greatest virtues.

Description

- Communicate with customers and end users to obtain and comprehend their requirements
- Communicate with stakeholders and subject matter experts and utilise insurance domain knowledge to develop strategy
- Planing for budget/cost estimation
- Creating, updating and managing proper internal and external documentation
- Supervise the complete development process life cycle from start to finish
- Coordinate with various persons on customer side, vendor side, and internally to ensure smooth progress of the

project
- Be a self-directed and good leader, requiring minimal supervision while achieving consistent, timely delivery of objectives

Job Offer

- Competitive salary due to specialist position
- Merit based promotion and growth potential
- Comprehensive benefits included (Health Insurance, Pension, Employment Insurance, etc.)
- Commuting Allowance
- Hybrid Work Style

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Sid Dhingra at +81 3 6832 8928.

スキル・資格

- Extensive experience working as a Project Manager
- Previous strong experience in the Insurance domain highly preferred
- Good understanding of Software Development Life Cycle
- Good understanding of Software Development methodologies (eg. Agile)
- Previous experience in software development and good understanding of technical areas
- Business level of English language skills
- Business or higher level of Japanese language skills
- Good communicator with client and team members
