募集要項

Join the team as a Network/Server Design and Operations Specialist. Utilize your expertise in server virtualization (VMware) and network troubleshooting to build and maintain our IT infrastructure, collaborating with international teams.

Client Details

Our client is an innovative company that values creativity, teamwork, and excellence. Join our dynamic team and collaborate with talented professionals to make a meaningful impact.

Description

- Manage and troubleshoot complex server and network infrastructure issues.
- Deploy, design, architect, and configure network and servers.
- Lead change management initiatives and provide guidance to junior team members.
- Collaborate with cross-functional teams to ensure seamless operation of systems.

Job Offer

- Competitive annual income up to 10 million yen.

- Retirement allowance, commuting allowance, and flexible working hours.
- Comprehensive social insurance coverage and various welfare programs.
- Training opportunities for IT skills and personal development.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Peryhan Essam on +813 6832 8691.

スキル・資格

- Strong analytical and problem-solving skills.
 - Proactive attitude and leadership experience in a global company.
 - Openness to new technologies and challenges.
 - Network qualifications (CCNP, LPIC-2, etc.) and server qualifications (VMware VCP, AWS Solution Architect, etc.) are a plus.
 - Excellent communication skills in Japanese and English.
-

会社説明

Our client is an innovative company that values creativity, teamwork, and excellence. Join our dynamic team and collaborate with talented professionals to make a meaningful impact.
