募集要項

You will play a critical role in bridging the communication gap between Japan and the regional/global teams. Manage a small team. If you are looking to focus on management rather than a technical position this role is for you!

Global Work Environment - Report Line Abroad - Lead for Japan and Korea

Make use of your leadership skills for project and vendor management

Client Details

Headquartered in the heart of Paris, where fashion is a second language, they are masters behind some of the world's most iconic brands.

Global Luxury Group

One of the largest companies listed in the world for luxury, and stands at the pinnacle of the industry. Leading the way in setting trends and redefining what luxury means.

A Company That Stands for Global Teamwork and Communication

Collaboration is the secret sauce to success. Their global team works seamlessly across borders, time zones, and cultures, ensuring that every success is a product of collective genius.

Talent Development

Talent development is highly encouraged. They believe in nurturing the team's potential and providing them with the tools and opportunities to grow. From innovative training programs to inspiring mentorship.

Description

Job Description:

- **Project Management:** Collaborate with local business teams in Japan to gather requirements for ongoing projects and operations. Manage project timelines and deliverables to ensure timely completion of IT projects.
- **Vendor Management:** Oversee vendor relationships and project timelines to deliver high-quality IT services that meet the business's expectations. Evaluate vendor performance and negotiate contracts to optimize costs and service quality.
- **Communication and Coordination:** Participate in meetings with regional and global teams to provide updates on Japan's business needs and challenges. Facilitate a smooth flow of information between local and international stakeholders.
- **Team Leadership:** Lead and guide your team, providing support and guidance on their daily tasks. Align their work with business objectives and ensure they have the resources needed to succeed.
- **Ensure Network Performance:** Monitor network performance, proactively identifying and addressing any issues. Ensure the network operates efficiently and meets the performance standards.
- **Cross-functional Collaboration:** Engage in cross-functional discussions with other team managers to coordinate and align network operations across the Japan and Korea markets.
- **Industry Trends and Optimization:** Stay up-to-date with industry trends and emerging technologies in IT infrastructure. Explore opportunities for optimization and enhancement to keep our systems cutting-edge.
- **Budget Management:** Assist in annual budgeting and track IT-related spending against the budget. Ensure financial discipline and optimize spending to support business goals.

Global Work Environment - Report Line Abroad (Manager Abroad) - Lead for Japan and Korea
