### 募集要項

#### 【About the Company】

The company has engaged in various industry AI projects. We have clients in a wide range of industries, such as finance, manufacturing, retail, food and drink, education, healthcare, manufacturers and IT communications, with hundreds of cases. The company is rated as one of the Best Ventures to Work in Japan.

Based on the knowledge and know-how of each industry obtained from this wide network, we promise innovative proposals that exceed the industry and precedent. Many intelligent talents in the world are gathering into the company now.

**[Job Description]****■Mission**

Based on the mission of "Creating a happy society through solving social issues using AI", the company is currently developing applications in the areas of HR Tech, Fin Tech, Med Tech, Care Tech, and Robot Tech.

**[HR Tech]**

Through "Jingrality", a technological singularity in the HR industry, they will pass on a more affluent society to our children even in the future when the working-age population is reduced by half.

**[Fin Tech]**

Through the realization of a society in which everyone can understand and receive necessary financial services, they will create financial services for those who have been left behind by the information gap.

**[Med Tech]**

They aim to create a world where people can live their lives as they wish through the realization of healthcare that is valuable to everyone.

**[Care Tech]**

Through the establishment of "care based on scientific evidence," they will support the independence and coexistence of care recipients, while making care more accessible to society through the use of technology.

**[Robot Tech]**

By utilizing AI for robot control, they aim to realize the succession of skills and reduction of programming man-hours for workers in the field, freeing them from simple or dangerous jobs and improving productivity.
