### 募集要項

#### **[About the Company]**

The company continues to create "systems that grow with people" in order to always provide attractive services.

The company is a system integrator that contributes to the creation of corporate value for its customers as their main IT partner.

Since its establishment in 1985, the company has been the best partner to help customers solve problems and increase their corporate value.

The environment surrounding companies is changing at a dizzying pace these days, and the combination of various factors such as the world economic situation, global competition, compliance, emphasis on security, preservation of the global environment, and CSR has made the issues facing companies more diverse and complex.

Under such circumstances, the company will continue to create new solutions by constantly improving its technical and proposal capabilities under the motto, "Always provide attractive services."
