募集要項

【ABOUT THE COMPANY】

●DX Support

Expansion of Orizuru functions, expansion of DX support areas (target industries), and expansion of cloud solutions such as Salesforce customization

●IT staffing support

Expansion of transactions with existing clients, development of new clients, expansion of Ohgi commission business, expansion of partner network to major cities nationwide

【JOB DESCRIPTION】**■About the Company**

The company is listed on the TSE Growth Market with approximately 400 employees (group of 550).

The company's business focuses on DX (Digital Transformation) support, human resource procurement support, and business process improvement through cloud applications.

■Recruitment Background

The company believes that excellent human resources are indispensable to cope with the ever-changing external environment and to maintain high business growth potential.

They are looking forward to accelerating the growth of the business by bringing in new colleagues who will work together with them to achieve business growth.

■Providing unique IoT solutions that enable customers' DX

The company provides data and visualization of various customer conditions and utilizes AI to solve problems and improve productivity and operational efficiency.

By automating veteran operations, reducing the number of employees, and saving manpower, the company is able to expand its business horizontally.

Although existing workflows vary widely from company to company, they provide services ranging from pre-introduction business consulting to system support during operation.

■Your Role

You will be responsible for overall management (progress management/risk management/team management/customer negotiation) as a project manager for DX system development.

This division, which focuses on DX for the manufacturing, logistics, and construction industries, provides business process optimization and associated system construction to major clients, and has an increasing number of major clients. They are looking for a project manager with knowledge of technology to support these companies.

As the division is in an expansion phase, they are actively hiring members in their 20s and 30s, so they are looking for someone who will initially work as a project manager and eventually take on a role that will lead the entire organization.

【Welfare】

■Full flex time system (no core time)

■Various social insurances (Health, Student Financial, Employment, Workers' Accident Compensation)

■All transportation expenses are paid.

■Overtime allowance

■Health and recreation facilities available (Kanto IT Software Health Insurance)

■Commuting in plain clothes allowed

■Hourly paid holidays

■Many technical books

【Holiday】

◎More than 125 days off per year

■2 days off per week (Sat. and Sun.)

■National holidays

■Year-end and New Year vacations

■Paid vacations

■Celebration or condolence leave

■Refreshment leave (every 5 years of service)

スキル・資格**【Required】**

- ・ 3+ years of experience as a project manager in system development
- ・ Experience in system development using Java
- ・ Daily conversational level Japanese language skills
- ・ Business level English skills
- ・ Resident in Japan

【Preferred】

- ・ Knowledge of system development and process improvement in the logistics, construction, and manufacturing industries
- ・ Experience negotiating with customers and making proposals (experience in Japanese is a plus)
- ・ Desire to work as a leader in a team environment, communicating with others to achieve results.
