- Assess and manage risks across the entire supply chain
- Research and introduce new technologies and best practices
- Develop and monitor budgets for supply chain activities
- Set "Site SC objectives" based on factory objectives and deliver results OTIF
- Develop and establish new supply chain processes and procedures for new products

Requirements:

- More than 10 years of experience in Supply Chain Management
- More than 5 years of service experience at production site
- Practical experience as project leaders with middle magnitude for the company
- Proficiency in SAP MM, PP
- Expertise in supply chain management software such as SAP or Oracle SCM
- Understanding of regulatory requirements in the pharmaceutical industry
- Knowledge of HSE and 5S, and ability to apply to operations
- Proficient Japanese and English

会社説明

We've been a driving force in the Japanese bilingual recruitment market providing high quality candidates for our clients and access to the best jobs for over 20 years. We operate a team-based profit share system which, we believe, sets us apart from the majority of competitors by enabling us to always put the interests of our clients and candidates first. That means we can find the best fit for employer and job seeker and we never push people into unsuitable roles.
